FMSAC Vu-Graphs

Doug:

1. Recently Carl Duckett asked that I check with the various offices to obtain some new vu-graphs for DD/S&T briefing purposes. Carl mentioned, particularly, to ask you to get a good color picture of the FMSAC Center which might be included in a SECRET or TOP SECRET briefing. Perhaps another picture might be taken which would show in detail and be suitable for briefings of a higher classification. He also asked for you to get together with OSI and [REDACTED] to work out a vu-graph showing joint publications.

2. There was no deadline given for all of this, except to try to arrange for it at your earliest convenience.
